**WELCOME TO PATIENT ASSISTANCE PROGRAMS**

Patient assistance programs (PAPs) are usually sponsored by pharmaceutical companies and provide free or discounted prescriptions to low-to-moderate-income, uninsured and under-insured patients who meet certain guidelines. Eligibility and application requirements vary from program to program which can sometimes make applying difficult or confusing.

That's where we come in. We're an organization that helps to facilitate the completion of Patient Assistance forms and applications. We handle all the paper work for you and your doctors office, we do all the necessary filing, and we also work directly with the pharmaceutical companies to see through the entire approval process of your applications. Once enrolled your medications are typically mailed directly to your doorstep in 90-day supplies, we also assist with the prescription refill process.

If you would like to learn more about Patient Assistance Programs or need assistance with the application process please give us a call at [1-855-889-3707](tel:1-855-889-3707), or fill out the contact form above. We look forward to speaking with you!

## GET HELP NOW : 1-855-889-3707

I acknowledge that by submitting this Request for Assistance, I am expressly authorizing to be contacted via telephone at the number provided above. We are not affiliated with the pharmaceutical company's, nor can we guarantee your acceptance into the PAP programs. Your approval will ultimately come from the pharmaceutical company that makes your medication. The employees working with our company are not licensed physicians or pharmacists. We are advocates that help to facilitate the completion of the PAP forms and applications. We cannot increase or decrease dosages, prescribe medication. The responsibility to taking the correct medication as prescribed by your physician will fall to you, the patient.
